TRAPP SIDE CHAIR

CONTRACT DINING CHAIRS

WIRE FRAME DINING CHAIR An eye-catching wireframe sets the Trapp Side Chair aside as a piece of contract furniture. The sled base and gridded back give the impression of a bistro chair, but the elegance of the seat and back suggest that the Trapp Side Chair would not look out of place as an item of hotel furniture. The wire frame is available in any standard finish, and there is any number of fabrics and leathers available on the pads. Our wireframe dining chair is inspired by mid-century modern style chairs. Crafted of steel tubing in a chic finish, this wireframe chair features a full back and padded seat, a breathable design. The Trapp high-chair uses a simple and durable frame with curved soft cushions. Clean lines paired with a stainless-steel base available in multiple finishes. This wireframe upholstered dining chair is guaranteed to match well with any table style. And the curved armless back invites you to sink into the softness of this wireframe dining chair. Complete your dining set with the Trapp Side Chair. Get in touch with us to know more about this wire frame chair supplied by UHS International in the UK.
