CONTRACT BAR STOOLS

INDUSTRIAL SWIVEL BARSTOOL A frequent offender in the industrial furniture world the Tomm Stool offers a simplistic approach to the barstool. Usually making an appearance with a raw steel lacquered frame, the Tomm stool can also be powder coated in practically any colour. Additionally, the swivelling wooden seat can be finished in any of our standard stains or a solid colour. A classic and quirky piece of bar furniture, the Tomm stool cuts a striking figure. This industrial backless barstool is made from metal and MDF, which ensures both long life and enduring stability. The Tomm Stool is height adjustable and caters for all body sizes. The footrest guarantees more comfort when sitting. With its modern design, this bar stool with wooden seat and metal legs is an ideal match for all interior styles. Get in touch with us to know more about this industrial looking swivel barstool at UHS International. Call Today!
