Harry RAMSDENS

Next Generation
restaurant... More
than a fish and
chip shop!

An exciting new look for Harry Ramsden portrayed here with design led furniture, private booths, rottiserie and a bar! We worked closely with the design team to create the right furniture here using Arco chairs, Moda chairs, tiled table tops and even tables on wheels... great scheme with great colours and textures.

Moda Armchair

We used the following base furniture and in some cases added additional items and treatments to them.

TRENDS

70's Glamour

Brass with velvet, marble and dark stained timber all creating spaces to get that opulent but an edge of hipster.

UHS worked very closely with the design team and they kindly sent us shots of Gloucester Arcade in London, very passionately Italian!

The walls are adorned with the text 'You may have the Universe if I may have Italy' along with green tiles and trailing plants gives the true classic feel.

We even spotted the designers modelling in a few of the shots, Adele and Emma sampling their designs and tasting some awesome food too by the looks.

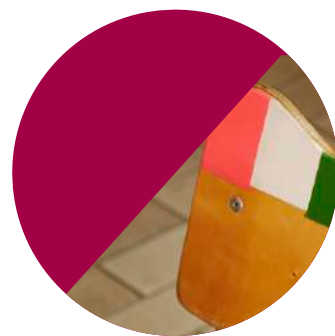

NEW WEBSITE TO BE LAUNCHED NEXT MONTH... KEEP AN EYE OPEN!

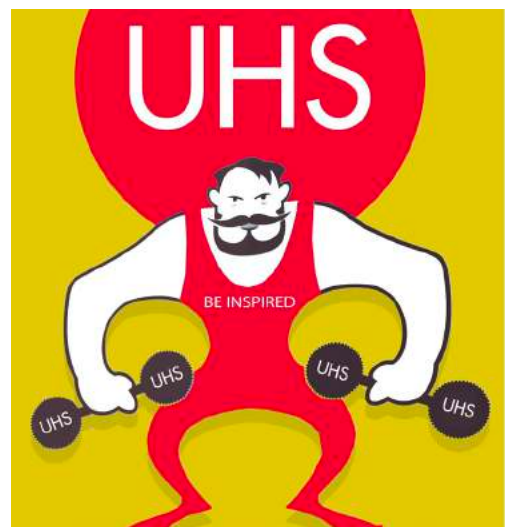

Burritos, Enchiladas and a Tequila would go down a dream in this restaurant with its Mexican inspired colours, materials and wall decor! The interior design is enhanced here with our furniture, customised with a dash of colour, quirky upholstery and a range of eclectic products from the "T" chair, Milo chairs with gold upholstery, lupo chairs, parlour stools etc...
